KENNETH GRAHAME'S
WIND IN THE
WILLOWS

Season for Young People extends a special thanks for support from

About the Show

**Journey
into the Wild Wood
on this multi-media adventure based
on Kenneth Grahame's beloved
children's novel. Wind in the Willows mixes classic
storytelling with projected illustrations to tell the
trials of Mole and Rat on an all-night race against
time as they venture through the hidden wonders of
the forest to find the young Otter before
it's too late.**

**From the team
who brought us Call of the Wild:
Illustrated Edition, the production uses 180-degree
projection that surrounds the performer and provides
scenic elements throughout the show, while
underscoring music and soundscapes set the mood.
Experience the magic and mystery as award winning
actor Noel Gaulin plays all the fabled characters in
this new adaptation of this classic story.**

**The world premiere occurred in October 2024
in Austin, TX at the State Theatre and was performed
in front of over 1,000 students. "From the beautifully
rendered projections to the immersive sound design
and energetic performance from Noel Gaulin,
audiences will be captivated." -Brian C. Fahey,
Senior Education Director,
Paramount & State Theatres.**

Interact with the Story

The Willows

In the Willows, the natural environment is alive and creating the world around the characters. Think about all the things you could find in the woods. What else could there be in the Willows that was not in the show? Draw your ideas to complete this picture!

Interact with the Story

Nature's Magic & Mysteries

As Mole and Rat journey into the Wild Wood, they encounter moments in nature that are mysterious or magical. Describe a time when you have seen or felt something magical or mysterious in nature.

Then draw it!
